Pre-Owned Copiers & MFP's

Avoid a 40-60% Drop in Resale Value
Purchasing a pre-owned copier will help you avoid that immediate 60% drop in resale value – which happens the moment you take delivery of any brand new photocopier. With thousands of well maintained copiers coming “Off Lease” and/or being repossessed monthly, purchasing a pre-owned copier maybe your best choice. Call us today so we can discuss your Copier/MFP needs and look for an opportunity to lower your costs.
